

# Cleaning Solutions

It's important to properly clean a site before installing bird control products. Follow these steps to insure that cleanup is done properly.

## 1. Moisten, Loosen Debris

Dried bird droppings will become airborne when disturbed (cleaned). It is important that they are wetted down to eliminate this risk. Wetting with a bactericide will kill the bacteria at the same time. With heavy accumulation it is necessary to wet down repeatedly.

## 2. Scoop, Collect

It's unlikely that large volumes of waste can simply be washed away; they need to be scooped up and removed in bags, and disposed of properly. Contact your local waste facility about the disposal of bird droppings.

## 3. Wash

Once the majority of the waste is removed, the building surface can be washed with water, detergent and scrub brushes; or pressure washed. Use the Dissolve-It again, it's a live enzyme that softens even the most stubborn waste.

## 4. Sanitize

With all the waste now removed, and the building looking clean, it is recommended to finish the job properly by applying a bactericide that will sanitize the surfaces and leave a clean smell.

## 5. Clean Around the Site

The building is clean, but the sidewalk's a mess. Finish the job properly.

### Dissolve-It™

Dissolve-It breaks down bird droppings and eliminates odors. It allows for easy removal of stubborn, caked-on droppings. Simply mix Dissolve-It in a 1:1 ratio with water, saturate the target area and let the solution work for at least fifteen minutes. Solution can be applied with a hand sprayer. The residue will easily spray away with hose or power sprayer. Non-toxic, non-flammable and biodegradable, plus it is USDA accepted, environmentally safe. It can be poured over piles of bird droppings, as well as into drains, trash cans, sewers and grease traps. Use at 1:1 spray mixture with water. Mix 1:1 – 1 Gallon makes 2 gallons

Dissolve-It (1 gal.)	CL-3000	655026
Dissolve-It (5 gal.)	CL-3005	674736

### Dirty Bird

Use Dirty Bird on any washable surface exposed to bird droppings, like roofs, gutters, ledges, awnings, chairs etc. It has been adapted to quickly break down and provide rapid organic waste removal including bird droppings. Dirty Bird can be used at 100%, but should be diluted. Mix 1:4 – 1 Gallon makes 5 gallons

Dirty Bird (5 gal.)	CL-7005	

### MBDC-10 (Microbial Bird Dropping Cleaner)

is designed to replace ordinary cleaners with a safe, concentrated formulation that is safe for any surface that will not be harmed by a water based cleaner. DILUTION: MBDC-10 may be diluted with water 5-10 parts water to 1 part MBDC-10 depending on amount of soiling. APPLICATION: Use any power washer or hand sprayer. Spray on surface to be cleaned and allow soak time. Fully wet and loosen material. If droppings are not immediately removed when rinsed, a second application and soak cycle may be necessary. Note: If area is sanitized following removal microbial activity may be impaired. Mix 1:5 – 1 Gallon makes 6 gallons

MBDC (1 gal.)	CL-5000	750517
