Re: StealthNet® Warranty Terms and Conditions

Bird Barrier Products, Inc. (“Bird Barrier”) warrants its StealthNet® bird netting products (“Product”) against (i) ultraviolet degradation and (ii) defects in manufacturing workmanship, subject to the terms, conditions, and limitations set forth herein.

1. Warranty Period

The warranty period varies by product color as follows:

- **Black StealthNet®:** Ten (10) years from the date of purchase
- **Stone and White StealthNet®:** Three (3) years from the date of purchase

2. Scope of Warranty

a. Ultraviolet Degradation

This warranty covers failure of the Product due to ultraviolet (UV) exposure resulting in material degradation.

To qualify as a failure under this warranty:

- The netting must exhibit **substantial loss of structural integrity**, such that it is weakened and breaks under normal, intended use.
- Netting that remains installed and continues to perform its intended bird exclusion function shall **not** be deemed to have failed.

Bird Barrier reserves the right to require **physical samples** of the Product for inspection and analysis prior to determining warranty eligibility.

b. Manufacturing Workmanship

This warranty covers defects in manufacturing workmanship originating at the factory, which typically present upon initial installation (e.g., torn or improperly fabricated netting).

- Claims for workmanship defects must be reported **at or immediately following installation**.
- Failure to report such issues at the time of installation may void this portion of the warranty.

3. Exclusions

Bird Barrier America, Inc.
20925 Chico Street
Carson, CA 90746

800-NO-BIRDS

www.birdbarrier.com

This warranty does not cover, and Bird Barrier shall have no obligation with respect to, damage or failure resulting from:

- Improper installation or handling
- Damage caused by external forces, including but not limited to forklifts, vehicles, equipment, or other site activities
- Abuse, misuse, neglect, or alteration of the Product
- Normal wear and tear that does not constitute material failure
- Environmental conditions beyond typical UV exposure (unless otherwise expressly covered)

4. Remedies

In the event of a valid warranty claim, Bird Barrier will, at its **sole discretion**:

- Provide replacement Product in full or in part, or
- Provide a prorated credit toward replacement Product

The determination of the appropriate remedy, including the quantity and value of replacement material, shall be made solely by Bird Barrier based on the specific circumstances of the installation and failure.

Labor, installation, removal, access, equipment, and any associated costs are expressly excluded from this warranty and will not be reimbursed under any circumstances.

5. Installer Responsibility

This warranty applies solely to the Product and **does not extend to installation workmanship**.

- Installation contractors are independently responsible for their work and should provide a separate workmanship warranty.
- Bird Barrier assumes no responsibility or liability for installation quality or performance.

6. Recommendations for Longevity

For installations in high UV or extreme sun exposure environments, Bird Barrier strongly recommends the use of **Black StealthNet®**, which has demonstrated superior long-term durability and may exceed its stated warranty period under certain conditions.
