Water Harassment

Spray Away Hydro-Remote Bird & Animal Sprinkler

Chase or harass birds and other pests with a quick blast of water. Protect ponds, lawns, rooftops, pool decks and other challenging settings.

- Remote-control features can be used up to 100 feet away from unit
- Dual purpose motion-activated sprinkler designed to protect yard from nuisance animals OR water your garden
- Watering feature can be set to 15, 30, or 60 minute timer
- Infrared sensor detects animal's heat & movement activating sprinkler
- Protects up to 1,900 square feet of gardens, yards and ponds

How it Works: The Spray Away Elite Motion Detector Sprinkler Animal Repellent is a water-based repellent that works by detecting an animal's heat and movement with infrared sensors. Once detected, the system releases a sudden burst of water to scare the animal away. An adjustable sensitivity detector and random spray pattern prevent animals from growing accustomed to the sprinkler.
