

Smell & Taste Control

Avian Control®

A new, patent-pending, EPA-registered liquid bird repellent that will chase your birds away. The product is a replacement for Migrate and Fog Force. Avian Control® uses cutting edge technology to efficiently repel undesirable birds without harming the birds, humans or other animals (including household pets).

Avian Control is EPA-registered for use on numerous crops to prevent damage from foraging birds. The repellent is effective against many types of nuisance birds including geese, pigeons, starlings and grackles. All of the ingredients in Avian Control® are food grade.

Avian Control® can be either fogged or sprayed and is compatible with both types of equipment for ease of application. It is designed for effective use – less often, in less quantity and to better effect. In outdoor applications, Avian Control® has a life expectancy of up to two weeks, but the results last much longer because birds “learn” to avoid areas treated with Avian Control®. While non-lethal to birds, it acts as an irritant discouraging birds from amassing. The dual application methods (fogging or spraying) are ideal for airplane hangars, grassy fields, golf courses or large properties.

Avian Fog Force TR

Avian Fog Force TR Bird Repellent is an EPA-registered bird repellent that is effective against all types of nuisance birds and is suitable for use around humans, pets and livestock. It's a non-lethal automated time-release aerosol bird repellent that discourages birds from congregating in dairy barns, stables, stadiums, marinas, garages and storage buildings, pools and patios and outdoor dining facilities.

Avian Fog Force TR is non-toxic. Its active ingredient is found in nature and is also used extensively in food designed for human consumption. All Avian Fog Force TR ingredients are “Generally Regarded As Safe” (GRAS) by the US Food and Drug Administration (FDA) and are “Earth friendly.”

It irritates bird's pain centers, creating an unpleasant sensation. Birds learn to avoid areas that have been treated and seek other locations.

Avian Fog Force TR TD-AV50

Avian Migrate™

A non-lethal liquid bird repellent that discourages geese and birds from congregating on golf courses, parks, athletic fields and around public buildings. Simply spray as directed – the effect is immediate and long lasting.

Avian Migrate contains a special colorant, visible only to birds, that lets them know that the area has been treated. This “teaches” unwanted geese and birds to stay away from treated areas in the future.

Avian Migrate™ irritates bird's pain centers, creating an unpleasant sensation. Birds learn to avoid areas that have been treated and seek other locations. It does not harm grass, shrubs and other vegetation and is not easily rinsed away by rain or sprinklers.

Avian Migrate™ is non-toxic. Its active ingredient is found in nature and is also used extensively in food designed for human consumption. All Avian Migrate™ ingredients are “Generally Regarded As Safe” (GRAS) by the US Food and Drug Administration (FDA) and are “Earth friendly.”

Avian Fog Force TR Dispenser

Avian Fog Force™ TR is dosed from light sensing user programmable time-release dispenser cabinets containing disposable aerosol cans. Each dispenser cabinet releases an invisible, intermittent aerosol bird repellent mist on a user-selected programmable time-release basis. Spray mist dispenser cabinets can be placed strategically in areas where nuisance birds are a problem and without any additional labor.

Dispenser cabinets are powered by two “D” batteries that last up to six months.
