EASY TO INSTALL

The Delrin (plastic) base can be screwed into most surfaces and comes with a 1/4" adhesive neoprene gasket. When placed together in groups, overlap the tips 4 - 6 inches.

HOW THEY WORK

Thin, stainless steel rods rotate in the breeze and wave menacingly, interfering with birds' wings as they attempt to land.

REMOVABLE

The center spindle can be easily separated from the base to access the area it is protecting.

HARD TO SEE

The Daddi Long Legs is inconspicuous from short distances and practically invisible from afar. Its unobtrusive design allows for use in even high visibility areas like shopping/walking promenades and parking lots.

HUMANE

The waving rods have plastic tips to prevent injury to birds or humans.

WHERE TO USE

- Rooftops
- Open Areas
- Parking Lots
- Boats & Ships
- HVAC Units
- Streetlights
- Industrial Sites
- Chimneys

TARGET BIRDS

- Gulls, pigeons or larger.

BIRD PRESSURE

- Medium

MATERIAL

- Stainless steel and Delrin plastic.

INSTALLATION

- Screwed or glued off-of-the-shelf.
- Alternative mounts on next page.

INSTALLATION LEVEL

- Easy

LAYOUTS & MOUNTING

Ariel View
Overlap each other & the roof edge.

Basic Mounts
Glue or add roof gasket & screw.

When gluing, make sure glue comes up through all the holes. Bird Barrier Bond works great. This base is included with all Daddi Long Legs.

Bird Barrier Bond
Dark Gray - 10.2 oz.
HA-BB04

BOAT BASE

This Lexan adapter attaches to the Daddi Long Legs base. It attaches to your boat with a bungee cord or rope.

Boat Base • DD-B105

SANDBAG BASE

The Sandbag Base is weighted sand-filled support that can be used in areas where the standard boat base is not appropriate.

Sandbag Base • DD-B110

ADDITIONAL BASES

BOAT RAILING OR PIPE MOUNT

When birds consider your boat's railing a perfect perch, attach a Daddi Long Legs with our tubular mounting base.

Boat Railing or Pipe Mount • DD-B115

MAGNETIC MOUNT

Magnets stick best to thicker metal. These magnets have not been wind-tunnel tested so secure with a safety tether when magnets are in high wind, if possible. Caution: many parking lot lights are aluminum - not magnetic. Magnets stick best to flat surfaces, use caution on when curved.

140 lb. Magnetic Base • DD-B140
