

EASY APPLICATION

Slip the stainless steel clips provided over the upper lip of the gutter and move on to the next section.

HOW IT WORKS

Thin stainless steel spikes protrude upwards from a plastic base, making it difficult for birds to gain a foothold. Gutter-Point's specially designed clips make it easy to install and the spike configuration protects not only the edge of the gutter, but the inside as well.

REMOVABLE

Many gutters require periodic cleaning, and Gutter-Point can be easily removed, then clipped back on when the cleaning is done.

HARD TO SEE

The thin, but rigid, stainless steel rods are almost invisible from a distance.

HUMANE

Gutter-Point's rods are not sharpened to prevent injury to humans, animals or birds.

INSTALLATION

Simply slip the stainless steel clips provided over the upper lip of the gutter and move on to the next section.

LEDGES

**GUTTER
POINT**

GUTTER-POINT STAINLESS CLIPS & SPIKES • CLIP • POLYCARBONATE BASE
25' - GP-SG25 & 50' - GP-SG50

Gutter-Point
It's for water. Not for Chilling.

Gutter-Point is hard to see from below as it protects the edge of this hotel's roof. See the clips that hook forward inside of the rain gutter as it protects the upper lip from pigeons & larger birds. Gutter-Point keeps pigeons off the edge and out of this rain gutter.

WHERE TO USE

Attach to the inside lip of rain gutters

TARGET BIRD

Pigeon and larger

BIRD PRESSURE

Light - Medium

MATERIAL

Stainless Steel & Polycarbonate

INSTALLATION

Stainless steel clips slide over lip of rain gutters

INSTALLATION LEVEL

Easy
