

Bird Traps

Sparrows and Starlings in a facility are messy and difficult to catch.

The Trap Door makes it easy. Sparrows hear the friendly chirp, see the food, step on the perch, and fall inside unharmed. The trap contains the bird waste, bait etc. It is a hygienic way to contain the birds until they can be removed from the building.

Preventative Sparrow and Starling Control

Place traps where birds are anticipated, and catch them when they first enter. The audio can be programmed to work with any schedule.

Sparrow Call Dramatically Increases Efficacy

The Trap Door is four times more effective with the optional audio attractor. The call operates on an intermittent basis so birds don't get used to it. There are ten different programs to choose from. Use on the Trap Door, or to draw sparrows into a mist net or cage trap.

Proprietary Audio Attractor

The Sparrow Trap Door has become a hit at commercial airports! Completely safe for public areas. In just three years we've sold thousands of trap doors globally to help relocate birds trapped indoors.

For 2018 we've made the Trap Door even more powerful tool for your arsenal by offering the Bird Alert - now your trap is autonomous and will text its status to your mobile phone! First trap of its kind to text you when it catches a bird.

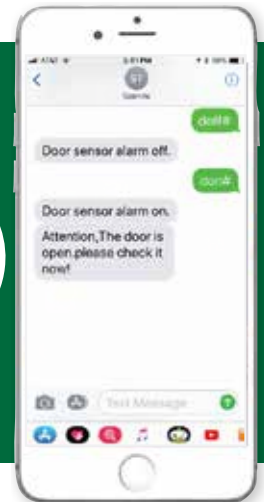

Receive a Text Message when your Sparrow Trap Door traps a bird.

The Bird Alert is a simple and powerful tool that will notify you instantly when your Sparrow Trap Door has caught a bird. The Bird Alert saves time, fuel and fleet costs. It promotes safety by reducing the frequency of checking traps in hard to reach or hard to access locations. Most importantly the Bird Alert reduces stress on the bird.

- Fast and easy to set up
- One week battery life, or up to a month with plug-in battery (sold separately)
- Adheres firmly to your existing traps
- Has its own SIM card, sends its message directly to you through the carrier
- Affordable data plans available

new

Positioning

The trap should be placed high up in the facility near the most bird activity. Put on a shelf or hang from a pipe. Set the trap to the open position and bait and check regularly. Multiple traps will be necessary in large facilities. Detailed instructions are included.

High-Reach Pole Mounting

Now Trap Doors can be positioned on high shelves and hung from pipes (hanger included) from the safety of the ground. All Trap Doors now ship with a pole attachment riveted to the back, which accepts Bird Barrier's aluminum extension poles (see page 63).

Convert to a Multi-Catch

The Trap Door can be secured to the top of a Bird Barrier sparrow trap. The Trap Door captures the first bird and drops it into the cage trap. Once inside that bird attracts more birds. See page 52.

Bird Traps

The Big Mama Pigeon Trap with Perches

Catch up to 25 pigeons at a time. This trap has many innovative features including:

- Four easy entry doors (two at each end)
- Two wooden perches create more room for others below
- Large access doors to service food and water
- Can be extended to double size (50 birds) with the Transporter Carrier or transfer birds into the Transporter for carrying

Large Pigeon Trap (ea.) TT-SW25 824215

Dimensions: 36" x 24" x 26" High
Shipping weight: 19 lbs.

Sparrow Trap

Two-chamber, bi-level repeating trap is ideal for sparrows. The trap accommodates twelve sparrows at a time. Unlike ground level traps, the birds enter the trap and immediately move to the elevated 2nd level, which eliminates their feeling of entrapment and the need to emit a distress call.

Sparrow Trap (ea.) TT-SP10 645247

Dimensions: 16" x 12" x 8"
Shipping Weight: 4 lbs.

Repeating Sparrow Trap

This trap has many innovative features including:

- Divided trap with two top access doors
- Proven bi-level design
- Easy access to service feed and water
- Six entry funnel doors, three for each compartment

Repeating Sparrow Trap (ea.) TT-SP50

Dimensions: 36" x 24" x 10" High
Shipping weight: 14 lbs.

Multi-Catch Cage Trap for the Sparrow Trap Door

Turn your Sparrow Trap Door into a repeating trap. The first sparrow is caught and falls inside the cage trap. Once inside it sings happily and attracts other birds.

- Trap Door secures to the top with spring clips
- Can be hung from the ceiling with provided cable bridge
- Two "draw bridge" style patios provide safe entrance for birds and are hinged up for transport
- Secure inner chamber can be stocked with food and water
- Sanitary metal slide-out pan keeps all food and droppings inside the trap
- Trap Door trap can be easily removed by unlatching the spring clips from the slots and sliding the trap forward while closing the top of the cage to eliminate the possibility of any birds escaping.
- Includes food and water containers for humane treatment of birds

Cage Trap for Sparrow Trap Door (ea.) TT-SP29 824357

The Monster Pigeon Trap with Perches

The biggest pigeon trap available, catch up to 50 birds at a time

- Six easy entry doors (two at ends, one on each side)
- Four wooden perches create more room for others below
- Large access doors to service food and water

Large Pigeon Trap (ea.) TT-SW30 824214

Dimensions: 80" x 24" x 26"
Shipping weight: 40 lbs

Pigeon Transporter Carriers

These transporters are the perfect way to take birds from a site without having to bag or carry large traps through buildings.

- Secure to the Big Mama Pigeon Trap with provided latches, birds simply move into the Transporter
- Top and side easy access doors
- Slide-out pan for easy cleaning
- Can accommodate separate food and water modules (see this page)

Carrier for 12-20 Birds TT-SW40
Carrier for 30-35 Birds TT-SW45

TT-SW40 Dimensions: 24" x 12" x 9" High (12-20 birds) 6 lbs.
TT-SW45 Dimensions: 36" x 16" x 9" High (30-35 birds) 11 lbs.

Water & Feeder Kits

Add water and food to many of our traps with these modular kits. Easy to install and clean.

48 oz. Water & Feeder Kit TT-SW50 784637

For smaller pigeon traps, 12" x 6" x 8" High

For large pigeon traps, 16" x 10" x 10" High

See page 50 for details on Sparrow Trap Door

Includes food and water containers

Wildlife Traps

Rigid Traps with One Trap Door

- Made from high tensile heavy gauge wire mesh.
- Galvanized wire for corrosion resistance resulting in 3x longer life.
- Trap frame and doors contain 25% more reinforcing rods for added strength.
- More O-Ring supports securing trigger mechanism and preventing animal damage.
- "Sure-Fire" trip mechanism with brass roller system assures nearly 100% capture rate.

Weight: 2 lbs.

TT-WT05

Rigid Traps with One Trap Door and Easy Release Door

- **Superior quality:** Same great design, materials, and specifications as the Rigid Trap with One Trap Door.
- **Easy animal release:** The easy release door provides for the safest and easiest way to release trapped animals.
- **Easy animal transfer:** Easy release door allows captured animals to be safely and easily transferred to holding or transfer cages. We offer a line of transfer cages that match up perfectly with these traps. This allows you to keep your traps in the field by transferring animals from your traps into transfer cages.
- **Easy trap baiting:** Baiting is much easier when done from the back of the trap with the easy release door removed. You no longer have to reach through the front of the trap and risk setting it off.
- **Simple to operate:** Unsnap the latch which holds the easy release door in place, and remove it by lifting up on the attached handle.
